Warranty

5 Years

Product Description

The suction cup shower bracket is a universal shower bracket featuring a powerful suction pad, which means no drilling is required during installation. It can be installed on most smooth surfaces including; Tiles, Glass & Metal without damage to the surface.

Designed to be compatible with the Auscan 712 and 713 range of shower hoses, as well as most common conical end shower hoses.

The suction cup shower bracket can easily be repositioned, removed when not needed or transferred from one shower/bathroom to another.

It is also ideal for use when a temporary shower bracket is needed; such as camping.

Specification

The shower bracket shall be Auscan Imports HH15 Suction Cup Shower Bracket in Chrome finish
